RING SIZE GUIDE

To ensure that the rings are shown in the correct sizes, please check that this print has the correct size. So we kindly ask you to print out this guide and find a ruler which can measure exactly 50 millimetres:

Europe 48
USA 4 1/2

Find a ring which is exactly your size. Choose your size by placing the ring on this paper. The inside diameter of the ring should match the diameter of one of the circles below.

Use a ruler to measure the inside diameter of the ring and find the equivalent diameter of one of the circles. For example, if your ring has an inside diameter of 16.9mm, this will correspond to a size 54. If the diameter falls between two sizes, always choose the larger size.

Remember to measure your size at room temperature. Your fingers will usually be slightly smaller in the winter than in the summer - cold fingers in the winter - warm fingers in the summer.

The size of the ring may depend on the design of the ring and its fit on your finger. A wide ring may require a larger size and several rings worn on the same finger may also require a larger size.

Please take a potential wide knuckle into consideration.

BIGLI declines any liability arising from errors resulting from the use of this tool. If your size doesn't match our Ring Size Guide, do not hesitate to contact us, info@bigli.be
